

Did you know.....

That MBC will not take excess refuse in black sacks in addition to the contents of refuse bins? The foxes and cats do though and scatter them (including nappies (YUK)) around the neighbourhood and into people's gardens.

Did you know.....

That you can ask for an additional recycling bin from MBC at no additional charge? Efficient recycling could help solve the ugly black bin bag issues and help keep our environment clean and tidy.

Food for thought?
